COMMON SINS SUCH AS SLANDER AND GOSSIPING

The common sins of slander and gossiping are so ordinary that there are few who realize that one of the sins influential in the bringing about the biased mind of the multitude against Christ was this common and so-called modern sin. It is not a sin of the women alone for quite as many men indulge in it.

This is the theme in the Presbyterian church Sunday night, in the series on "The Sins that Crucified the Christ."

HATCHERY SITE TO BE SELECTED BY GOVERNMENT

State fish and game commissioner, Fred W. Chambers is just now engaged in directing R. J. Johnson of the fish hatchery bureau of the United States to sites for the establishment of a national hatchery in Utah. Mr. Chambers is of the opinion that it is well worth the time of the people of Ogden to offer some inducement for the government to build the hatchery in Weber county.

Mr. Johnson has already examined proposed sites in Utah county and the special efforts were made by the Commercial club of Provo to show all the advantages of sites on the borders of Utah lake.

Salt Lake county has been looked over and by the early part of next week Mr. Johnson, accompanied by Mr. Chambers, will visit Cache county. The Commercial club of Logan sent a special wire to Washington extending an invitation to Mr. Johnson to examine prospective fish hatchery sites in Cache valley before making a choice. He will be in that county a couple of days, when he will visit Weber county.

It is said that there are a number of available sites in Weber county, among them being the warm springs of the Huntsville section, there being no better sites in the state. In fact it is contended that the government would make no mistake were the hatchery established in Weber county without further investigation. The water and climatic conditions are favorable and easy access to the railroads would be of importance to the industry.

Congress has appropriated \$25,000 for a hatchery in Utah and it is claimed by the commissioner that about \$75,000 would be expended for equipment. Aside from this, continued appropriations would be necessary for maintenance and the employment of men to take care of the hatchery. No fewer than six or eight men would be required to take care of the place, which would call for the expenditure of \$10,000 or \$15,000 a year. It is also contended that if the hatchery is built on Ogden river it would mean the ample stocking of the river and all its tributaries with trout. The hatchery will be used for the propagation of bass as well as trout.

Commissioner Chambers states that he and Mr. Johnson will be in Weber county about Friday and Saturday of next week. The government man has not yet made a choice, nor has he even expressed an opinion. So that Weber county, although the last county visited, stands an equal prospect of getting the hatchery.

NEW WHEELS IN THE POWER PLANT ARE NOW MOVING

The Utah Light & Railway company today is putting into service part of the new machinery recently installed at its local power plant and within the next few days will have all the wheels moving. The plant is in good condition, since the making of the repairs occasioned by the recent destruction caused by the water getting away from the penstock and flooding the building.

The pipe line leading to the dam in Ogden canyon is in good condition and, when the plant is operated under full capacity, all parts of the works will be without defects.

CONDEMNATION NOT NECESSARY ON THE CUT-OFF

The board of county commissioners have had settled with John A. Randall of North Ogden for a right-of-way for the Ogden-Pleasant View cutoff and the condemnation proceedings will be dismissed. The county paid Mr. Randall \$975 for his property with the understanding that he will change the course of the canal which traverses the new road.

In the early spring the road will be macadamized and placed in the best of condition. It already has been graded but the commissioners are of the opinion that it will be well to let the dirt surface settle during the winter months before covering it with macadam. By straightening the canal, which Mr. Randall has agreed to do, the county will avoid the building of three bridges which would cost about \$250 each. The county has agreed, however, to build a substantial concrete culvert under the roadbed for the transmission of irrigating water from one part of Mr. Randall's land to another lying on either side of the road.

The cutoff saves a distance of about a mile and a half and it avoids the North Ogden hill, which always has been objectionable to the traveler through that section of country. It is said that with this piece of road macadamized, the road from Ogden into Box Elder county will be among the very best in the state, in fact there could be no better road for all classes of travel.

SOLDIERS DEPART IN THREE TRAINS FROM SALT LAKE

To the tune of "The Girl I Left Behind Me," the Twentieth United States infantry marched through Salt Lake City from Fort Douglas this morning and trained for El Paso. Despite the early hour, many citizens lined South Temple street and cheered their departure.

Three special trains, a half hour apart, transported the troops, the first leaving at 9:30 o'clock over the Salt Lake Route. Connections will be made with the Southern Pacific railway at Colton, Cal.

Although it is expected the regiment will be assigned to garrison duty, it is completely equipped for field service.

WHITE MAN AND HIS COLORED WIFE ARE ARRESTED

Mabel Davis, and George A. Davis, a husky negro, and a diminutive white man, were arrested at 1:50 this morning near the office of the Volker Lumber company, by Sergeant Herbert C. Peterson on a charge of lewd and lascivious conduct. They claimed that they are man and wife, and were released on depositing \$25 bail for their appearance at 10 a. m. to day.

They failed to appear when court was called and their bail was declared forfeited.

A Glimpse of California for You

Would you like to see some of the wonders of California? Haven't you been dreaming about the Golden State for a long while? Wouldn't you like to see with your own eyes some of the world's famous resorts and hotels? Wouldn't you like to know how to see and enjoy these beautiful, homelike hotels? Wouldn't you like to look at the great hills and smiling valleys, the fragrant orange groves, the folks at play in the winterless paradise of the Pacific?

HOW TO BRING CALIFORNIA TO YOUR HOME
Yes, that is possible. If you will send us ten cents merely to cover cost of mailing, we will send you free a booklet descriptive of California's famous resorts in an addition the big Christmas number Sunset Magazine with a big story of the progress of the Panama-Pacific International Exposition and further views of the Pacific Coast world. Be sure to mention this newspaper and address your letter to:

SUNSET MAGAZINE, San Francisco, Cal.
